Have you made a couple New Year's Resolutions yet? It is **not too late**, attached is a "helper sheet". Go ahead and make one or two easy ones, and see how it goes, just for a bit of fun.

GOOD LUCK!

Do you need less stress in your busy life-well, that is easy to fix-sign up for automatic rent. It's soooo easy, just come to the office and we will assist you, it only takes about three minutes.

Then you won't have to get out in nasty weather anymore.

*****Non Holiday Food*****

TACO PIE

1 pkg crescent roll dough

1# burger

1 pkg taco seasoning

1 16 oz sour cream

8 oz Mexican style cheese-shredded (or favorite)

1 14 oz bag tortilla chips-crushed

Heat oven to 350 degrees. Lay roll dough flat on bottom of greased 9 inch square pan and bake according to directions. In large skillet, crumble, brown and drain burger, add the taco seasoning packet and mix well. Spoon meat filling onto crust, add a layer of sour cream and sprinkle with the cheese. Top with the crushed chips. Bake about another 10 minutes or until the cheese is melted.

HINT-I would use flavored chips. Have lettuce, tomatoes, onions, and salsa ready to use as toppings.

QUICK—EASY—AND SO YUMMY!!!

Dear God,

We start the year with this simple prayer. Please heal the broken people. Make well the sick. Restore happiness to those in despair. Bring love to the lonely, food to the hungry and peace to our world.

Amen.

SOMETHING TO MESS WITH YOUR MIND

According to a research study at Cambridge University, it doesn't matter in what order the letters in a word are, the only important thing is that the first and last letter be in the right place. The rest can be a total mess and you can still read it without problem. This is because the human mind does not read every letter by itself, but the word as a whole.

We all suffered through a
Nebraska Blizzard
these past few days.

SMILE everyone-spring is just around the corner. Things will get better for a while, then we will wonder when will this horrible heat wave be over.

NEVER SATISFIED!!

DID YOU KNOW??

With just a bit of imagination and some wishful thinking, you can “sorta” predict the coming years weather, by keeping track of the first twelve days of a new year.

Each of the twelve days corresponds with a month.

For example:

#1 January-sunny and warm

or

#1 January-cold and windy.

You DO NOT need to get technical and precise.

It is just for fun!
