By now, everyone should be aware that the REAC Inspections **did not** happen. When we receive an update from HUD we will notify you. Until we receive a date from the HUD Office we are waiting the same as you are.

Thank you for your cooperation.

Here

Ord Housing Authority  
will be

**C L O S E D**

on Monday, September 2nd  
for Labor Day.

See you on Tuesday.

### **ATTENTION: ROLLING HILLS TENANTS**

Recently, some money was found and turned into the office. If this might be yours, come to the office and discuss it.

Did you know that September is National chicken month, coupon month, honey month and Library card month??

Why not use a coupon to buy a chicken. Then, go to the library and check out a interesting book and enjoy the chicken while dipping it in honey sauce.

\*\*\*Just one of those thoughts\*\*\*

## **BEEF TACO BAKE**

\*\*\**this is sooo **easy** and sooo **yummy***\*\*\*

1# hamburger

1 can tomato soup

1c picante sauce

1/2c milk

6 to 8 tortillas (flour or corn) cut into 1" strips

1c cheddar cheese-shredded

Cook the burger until well browned and drain. Stir in the soup, picante sauce, milk, tortillas and half of the cheese. Spoon the mixture into a shallow greased baking pan. Cover and bake at 350 for about 30 minutes or until mixture is hot and bubbling. Sprinkle with remaining cheese. (you can also add a small can of refried beans and a small onion to the burger mixture when cooking-another good thing is just before serving, top with lettuce and tomatoes)

## FUN FACTS ABOUT AUTUMN

### **What is Indian Summer?**

The term Indian summer dates back several hundred years. Native Americans took advantage of the dry, warm days to increase their winter food supplies. Indian Summer occurs after the first killing frost, with a period of warm and dry weather.

### **What is a Harvest Moon?**

Harvest Moon is just a name for the full moon nearest the autumnal equinox. During this time the full moon rises around sunset for a few days in a row. You might think the Harvest Moon looks bigger, brighter or more orange. That's because the Harvest Moon has such a powerful mystique.

Any full moon will look big and orange when it is viewed near the horizon, your eyes are playing tricks with your brain.

### **How did Harvest Moon gets its name?**

In the days before tractor lights, the lamp of the Harvest Moon helped farmers bring in their crops. As the sunlight faded in the west, the moon would rise in the east to illuminate the fields throughout the night.

## **ATTENTION -- SCATTERED SITE TENANTS**

Though the weather is still very nice, it's not too early to start thinking about getting your home ready for the winter ahead.

**Remember to clean  
out your  
homes gutters and  
down spouts.**

Do a quick check around the outside of your house to see that all is as it should be-if not- give the office a call at 728-3770 to have any repairs made.

**It is much easier to  
do repairs now,  
rather than the  
middle of a snow  
storm.**

Also, thank you to everyone for the good job you have done of keeping your yards nicely mowed, this year.
